

# **Mistress Jasmine's Featured Activities**

## **Legal Notices**

### General:

All Restraints staff and models are thoroughly versed in RSA:645:2 and RSA:632-A:1, which are New Hampshire's anti-prostitution laws. We thoroughly understand the law and do not violate it. We have attorneys and will fight entrapment attempts in court in front of a jury.

You understand and agree that money taken is solely in exchange for legal adult personal services, such as playspace rental, bondage and fetish modeling, photoshoots or acting in adult videos. Sexual relations are not requested or contracted for in any manner. This is not an offer of prostitution.

### Our Right of Refusal:

In ALL cases the model has sole discretion with regards to what activities occur. We do reserve the right to decline any appointment as we deem necessary.

## **Dominant's General Limits**

### The "Injury" Limit

You will not be injured in any way. Nothing will be done that would require medical treatment or do any actual bodily harm.

### Progressive Stress:

The Mistress will communicate with you as your level of discomfort and pain increases. The goal is to allow you to be stressed toward your limits without having you use the safe word or gesture. Clamps or rope ties will be tightened gradually. Pain will be applied lightly at first and a little at a time. For example, you might be spanked lightly a few times and then she will stop. As she goes along she will use questions such as, "Can you take more for me?" or "Do you like that?" If you respond, "YES" she will continue and go harder. If you are reaching your limit, you should stop responding to her inquiries, go quiet, give her a worried look, and/or bite your lip. That's the signal to her that you are approaching your limit.

### Safe Words and Gestures:

If she goes too far you should say this EXACT word: "Red!" If you are gagged you should wiggle your fingers. This means for her to stop.

## **Very Important!**

If there are any items below that you DO NOT want done during your session, print out this form and cross out the items you want excluded. Show the modified form to the dominant BEFORE the session begins.

Also, if there is anything you want to do but do not see it here – ask.
