

slave alice's Limit Sheet

Legal Notices

General:

All Restraints staff and models are thoroughly versed in RSA:645:2 and RSA:632-A:1, which are New Hampshire's anti-prostitution laws. We thoroughly understand the law and do not violate it. We have attorneys and will fight entrapment attempts in court in front of a jury.

You understand and agree that money taken is solely in exchange for legal adult personal services, such as playspace rental, bondage and fetish modeling, photoshoots or acting in adult videos. Sexual relations are not requested or contracted for in any manner. This is not an offer of prostitution.

Our Right of Refusal:

In ALL cases the model has sole discretion with regards to what activities occur. We do reserve the right to decline any appointment as we deem necessary.

The Model's General Limits

The "Injury" Limit:

The model cannot be injured in any way. Nothing can be done that would require medical treatment or do any actual bodily harm. The model cannot be punched or kicked. The model cannot be hit in any way that would cause breakage of the skin, bleeding, welts or large bruises. Nothing can be done to cause any internal injury. Joints cannot be twisted as to cause separation or any internal damage. There cannot be any damage to the eyes, nose, ears or mouth. Bondage and/or positions should not be extended past 10 or 15 minutes.

Progressively Stressing the Model:

The models are trained to communicate with you as you increase their level of discomfort and pain. The goal is to allow you to stress the models to their limits without having them use the safe words or gesture. Apply pain lightly at first and a little at a time. Tighten clamps or rope ties gradually. Spank the model a few times and then stop. As you go along use questions such as, "Can you take more for me?" or "Do you like that?" or "Harder?" If the answer is "Yes" you may continue and go harder. You might also ask her, "How many more of those can you take for me?" to which she may respond, "Please sir, 3 more." Then give her 3 more. But if the model stops responding to your inquiries, goes quiet, gives you a worried look, and/or bites her lip, that's the signal she's reaching her limit. At that point you need to slow down or stop and move on to something else.

Safe Words and Gestures:

If you go too far the model will say this EXACT word: "Red!" or if she is gagged she will wiggle her fingers. This means stop! If you don't stop immediately you risk having the session terminated without refund.

Section 2:

The items included in this section cannot be legally performed in exchange for a fee under New Hampshire law.

Items in this section can be legally performed only under two conditions:

- 1. Sometimes during a modeling session the model may elect to engage in certain mutually pleasurable activities, which are not contracted for and are not included in the modeling fee. Any such mutually pleasurable activities that may or may not occur are strictly between two or more consenting adults of legal age and are not contracted for.**
- 2. Certain acts, when performed in front of a camera (either a still or video camera), are not considered prostitution and are being performed legally when any fees paid to the model are exclusively in exchange for the model's appearance in the still pictures or videos. Such fees are acting fees and are not paid to the model directly for the performance of the acts themselves.**

The model's personal preferences are also shown. Subject to the two conditions above any item below could be legally performed, but if the model has indicated "No" or "Prefer No" or "Maybe" she would need to be persuaded to change her personal preference for that item before or during the session.
